

LEARN CSS PSEUDO-CLASS **SELECTION** IN 2 MINUTES !!!

CSS Pseudo Class - Selection

This CSS pseudo-class is used to style the part of a document that has been selected by the user.

In simple terms, clicking and dragging the mouse across the text.

CSS Pseudo Class - Selection

After researching various articles, I got to know that only the following CSS properties can be used in this CSS pseudo-class:

- color
- background-color

This property is applicable for all browsers except safari.

selection

HTML

<!-- CSS -->

```
p::selection {
  color: blue;
  background-color: pink;
}

span::selection {
  color: white;
  background-color: lightblue;
}
```

<!-- HTML -->

```
<p>

All I need from you is
to follow this guy named
<span>Pritesh</span> on
Twitter

</p>
```

HTML OUTPUT

Before

All I need from you is to
follow this guy named
Pritesh on Twitter

After

All I need from you is to
follow this guy named
Pritesh on Twitter
