

PART - 6

CSS **GRID** (GRID ITEM PROPERTIES)

Follow @PriteshKiri

CSS Grid

The CSS Grid offers a grid-based layout system, with rows and columns, making it easier to design web pages

For simplicity, I have divided the topic into three parts:

1. Grid Terminologies
2. Grid Containers (parents)
3. Grid Items (children)

In PART-1 of this Grid SERIES I have discussed about flexbox terminologies, in PART 2 ,3 ,4 and 5 I have discussed about few of the Grid Container properties and in this part we will be discussing about Grid Item properties.

CSS Grid

Following are the grid item properties:

1. grid column
2. grid row
3. grid area
4. justify self
5. align self

CSS Grid Guide

Grid Items Properties

OUTPUT

```
.grid-container {  
  display: grid ;  
  grid-template-columns: auto auto auto;  
  grid-template-rows: auto auto auto;  
}  
  
.gitem1{  
  grid-columns: 1 / 3;  
}
```

```
.grid-container {  
  display: grid ;  
  grid-template-columns: auto auto auto;  
  grid-template-rows: auto auto auto;  
}  
  
.gitem1{  
  grid-columns: 1 / span 3;  
}
```
